Sir,

well. I am Saurav Shejwal, a third-year student in the EXTC branch at SIES Graduate School of Technology. Mathematics was always a huge challenge for me. I struggled a lot with M2 and M3, and despite my efforts, I couldn't get the results I wanted. But after discovering your teaching, everything changed. Your clear explanations and focusing on the important topics made a big difference. Now, I am confident that I can attempt the golden M3 attempt but might even score 70+.

Thank you for your help. You are an amazing teacher, and I hope many more students get to learn from you.
